FALKE Apparel - Salt Lakes

Concentrating on the essential, pausing for a second and enjoying the moment, that is what is often missing in hectic everyday life. Yet the beauty often lies in the simple things that make us happy. In the Spring/Summer 2021 season, FALKE presents a collection inspired by the beauty of nature, or more precisely by the structures and colours of a salt lake landscape for a positive summer feeling. Classic colours like dark blue, black and grey in combination with natural tones like red and brown are in the foreground.

Highlights of the collection are summer shorts for men made of a viscose cotton blend, which are pleasantly soft to the body. The viscose on the outside is wind-resistant and cools at higher temperatures while warming at colder ones. A windbreaker protects in fresh spring air, is windproof and water-repellent. Nylon inserts give the zip pullover for sporty outdoor activities an athletic look.

For women, the focus is on trousers in 7/8 length. The knitted pants made of viscose have a sporty silhouette thanks to their wide legs and are timelessly modern at the same time. A zip-jacket, also made of viscose, in a trendy loose Boxy cut can be perfectly combined with the pants. The extra large hood provides ideal protection against different weather conditions in addition to the wind and water-repellent material. A multicolour bustier is a sporty accessory for a special layering look. Made of knitted viscose stretch, the belly-free top convinces with an athletic look and emphasizes the female shoulder area. The top is available in a simple black-grey-white version and in a trendy colour blocking combination of burgundy red, bright red and grey.
